

vCISO

Virtual Chief Information

Security Officer

Guidance from seasoned cybersecurity experts without the cost of a full-time executive.

A vCISO, or virtual Chief Information Security Officer, provides your organization with experienced cybersecurity leadership and strategic guidance without the cost of hiring a full-time executive. A vCISO's expert advice and oversight helps your business enhance your cybersecurity defenses and respond effectively to security incidents. These seasoned cybersecurity leaders work hand-in-hand with your team to reduce risk, help with migrations, optimize spending, advise on topics such as cyber insurance, and more. Simply put, our vCISOs are capable of doing anything a CISO does on a fractional basis.

Services You Gain

Risk Assessment & Compliance

Specialized risk assessments to ensure your organization adheres to required compliance programs, such as NIST, CMMC, and HIPAA.

Risk Management

Our vCISO will identify risks and guide you through solutions within your unique environment, addressing challenges like cybersecurity framework alignment, access control, business continuity, and more.

Cloud & Hybrid Solutions

Expert assistance in cloud migration and hybrid environments, providing secure and efficient transitions with minimal disruption.

Optimized Spending & Debt Reduction

Benefit from specialized counsel in retiring technical debt, meticulously planning budgets, and optimizing spending for sustainable growth.

Advisory & Custom Solutions

Our experts have decades of experience and are ready to take on any project you have. Schedule a free, no-obligation consultation to meet our dedicated team!

The Ascend Advantage

Experts You Can Trust

Award-Winning Team

Team Ascend's renowned experts are some of the best in the industry. Ascend consistently ranks among the top MSPs in the country, earning positions on award charts such as Channel Future's top 501 MSPs, the CRN MSP 500 & Elite 150, and Inc. 5000.

ITIL-Based Processes

Our unwavering mission is to maximize efficiency by making the onboarding, implementation, and rollout journey seamless and enjoyable. Leveraging the ITIL framework, we bridge the gap between security and compliance to enhance overall effectiveness.

Zero Trust Security Approach

Adopting a "trust no one" strategy safeguards your company information from the inside out. We'll implement continuous authorization, strict access controls, and ongoing monitoring for your ultimate protection.
