

Digital

Workspace Deployment

Device deployment for a secure, scalable workspace

Leveraging Microsoft Intune, we provide a touchless solution for workstation deployment. This allows your organization to quickly deploy devices while maintaining a consistent security standard. Our team of experts creates tailored configurations that deliver all the essential applications, patches, and updates your users need to get to work. With Digital Workspace Deployment, your organization can rapidly scale to meet the demands and growth of your business.

Services You Gain

Expert Configuration

Get recommendations tailored to your specific needs. We build configurations that include all essential applications, patches, and updates, ensuring your users have everything they need to be productive from day one.

Cloud-Based Deployment

Quickly deploy devices across your organization without manual intervention. Our touchless solution ensures a seamless setup process, allowing your users to get started with minimal downtime.

Consistent Security Standard

Maintain consistent configurations across all deployed devices and ensure that each device meets your organization's security policies and standards, protecting your data and operations.

Scalable Solutions

Add new devices and users quickly and efficiently, ensuring your IT infrastructure keeps pace with your organizational needs.

The Ascend Advantage

Experts You Can Trust

Award-Winning Team

Team Ascend's renowned experts are some of the best in the industry. Ascend consistently ranks among the top MSPs in the country, earning positions on award charts such as Channel Future's top 501 MSPs, the CRN MSP 500 & Elite 150, and Inc. 5000.

ITIL-Based Processes

Our unwavering mission is to maximize efficiency by making the onboarding, implementation, and rollout journey seamless and enjoyable. Leveraging the ITIL framework, we bridge the gap between security and compliance to enhance overall effectiveness.

Zero Trust Security Approach

Adopting a "trust no one" strategy safeguards your company information from the inside out. We'll implement continuous authorization, strict access controls, and ongoing monitoring for your ultimate protection.
